

## **Brad McLaughlin shares his thoughts on being back in the office.**

I absolutely love our Bristol office. It's incredible and it has been such a blessing for me to be able to come in and do my work in the office so as soon as we had that opportunity to come in, I leapt at it.

Some of the big benefits for me are the focused space, coming and sitting at a desk, but also being able to interact with and talk to other people.

I love talking to people and that bouncing ideas off other people has made a huge difference to me.
