Supplementary notesName of insurer **Aviva Annuity UK Limited**

Global business

Financial year ended **31st December 2013****Code****0201 Section 148 Waivers****Rate of interest 1066620**

The Financial Services Authority, on the application of the firm, made a direction under section 148 of the Financial Services and Markets Act 2000 in September 2009. The effect of the direction is to modify the provisions of INSPRU 3.1.35R and IPRU(INS) Appendix 9.3 so that a more appropriate rate of interest will be used for assets taken in combination.

Counterparty Exposures 1528722

The Financial Services Authority, on the application of the firm, made a direction under section 148 of the Financial Services and Markets Act 2000 in October 2012. The effect of the direction is to modify the provisions of INSPRU 2.1.22R so that the exposure limits to unsecured debt and unsecured loans is (i) 5% if the exposures do not include public private finance contracts; and (ii) 8% if the exposures include public private finance contracts and no more than 5% of the exposures are non-public private finance contracts.

0203 Quota share reinsurance

On 31 December 2013, the company entered into a Quota Share reinsurance arrangement with its immediate parent undertaking Aviva Life and Pensions UK Limited (UKLAP). Under the terms of the Quota Share, 12.5% of the Long Term Fund of the company has been reinsured to its immediate parent undertaking.

As part of this arrangement, the company paid a Reinsurance Premium of £3,998.4m to UKLAP, but £3,930.5m of the premium was immediately deposited back with the Company as collateral, with the liability for this recognised in Form 14 at line 23. Under the terms of the reinsurance, 12.5% of the investment returns arising from assets underlying the reinsurance will be ceded to UKLAP along with a corresponding share of future premiums and claims.

Included within this reinsurance are index linked liabilities of £524.4m, which have been reflected in Form 54 net of the Quota Share Reinsurance. As the assets backing the reinsurance have been deposited back with the company, the assets backing the index Linked Liabilities have been presented gross of the Quota Share Reinsurance in Form 13 at Line 58 and in Form 56.

Reversionary interests or remainders in property other than land or buildings	-	-

1304 Amounts set off**1310**

Amounts have been set off to the extent permitted by generally accepted accounting principles.

Supplementary notesName of insurer **Aviva Annuity UK Limited**

Global business

Financial year ended **31st December 2013****Code****1305 Counterparty limits****1319**

The investment guidelines operated by the Company specify exposure to counterparties by asset type as follows:-

Deposits

The maximum permitted exposure to counterparties is set out in the Investment Management Agreement with Aviva Investors Global Services Limited and approved by the Aviva Life Investment Committee. Each fund cannot hold more than 2% of funds under management (but subject to minimum of £20m and a maximum of £150m) with individual 'Tier 1' counterparties, 1.5% of funds under management (but subject to a minimum of £15m and a maximum of £100m) with individual 'Tier 2' counterparties and 0.5% of funds under management (but subject to a minimum of £10m and a maximum of £75m) with individual 'Tier 3' counterparties. Tier 1 represents AAA rated institutions, Tier 2 represents institutions rated AA- or better whilst Tier 3 represents institutions rated A- or better.

Fixed income securities

Exposure to non-government bonds is limited to holdings, which are deemed to be of a suitable investment grade determined by senior financial management. The maximum net exposure (measured by market value and including derivatives) to a single non-Government counterparty should not exceed £450m for AAA- rated, £300m for AA- rated, £220m for A- rated, £110m for BBB- rated and £6m for sub-IG. The Manager will report passive breaches (breaches caused by market movements) of these limits to the Client's Director of Investments.

Commercial mortgages

Gross capital exposure to any one commercial mortgage borrower should not to exceed 5% for companies or 0.8% for individuals of the Long Term Business amount without Fund authority to explicitly approve alternative limit.

1306 Counterparty exposure**1312**

Exposure to any one counterparty at the end of the financial year did not exceed 5% of the sum of the insurer's base capital resources requirement and its long-term insurance liabilities, excluding property linked liabilities and net of reinsurance ceded.

1309 Hybrid securities

The aggregate value of hybrid securities is £128m

1318 Other asset adjustments

Amounts included in Form 13 line 101 are analysed as follows.

1401 Provision for reasonably foreseeable adverse variations**1501**

The methods and assumptions disclosed in the valuation report, under IPRU (INS) Appendix 9.4, appropriately allow for the determination of any adjustment or provision pursuant to GENPRU 1.3.30R to GENPRU 1.3.33R and INSPRU 3.2.17R to INSPRU 3.2.18R, together with a review by senior management of positions that are valued using third party valuations or by marking to model.

1402 Contingent liabilities**1502**

The Company has granted a floating charge to its parent Company, Aviva Life & Pensions UK Limited, in respect of the exposure to the funds withheld by the Company under the terms of a 12.5% quota share reinsurance agreement entered into on 31st December 2013. The charge, subordinate to policyholders, is issued over the long term business assets of the Company, excluding the financial investments of the bulk purchase annuity schemes and those providing cover for derivative transactions as required by regulatory reporting regulations.

The Company has also indemnified the overdrafts of certain other group companies.

Other than those noted above there are no additional charges over any assets of the Company or guarantees, indemnities or any other contractual commitments in respect of related companies.

There are no provisions for deferred tax liabilities and no potential liabilities for corporation tax on unrealised gains.

There are no contingent liabilities applicable to long term insurance business.

There are no other fundamental uncertainties.

1404 Implicit provision required by INSPRU 3.2.17R(3)

The amount of implicit provision required by INSPRU 3.2.17R(3) included in line 38 is £338,550k.

1405 Other adjustments to liabilities

Amounts included in Form 14 line 74 are analysed as follows.

	2013	2012
	£'000	£'000
Adjustment to mathematical reserve	(411,702)	(515,822)

Revaluation of deposit received from reinsurers	(930)	-
Total	(403,553)	(425,252)

Supplementary notesName of insurer **Aviva Annuity UK Limited**

Global business

Financial year ended **31st December 2013****Code****1507 Other adjustments to liabilities**

Amounts included in Form 15 line 83 are analysed as follows.

	2013	2012
	£'000	£'000
Adjustment to tax – valuation differences	(472)	-
Total	(472)	-

1601 Rates of exchange**4005**

The Company conducts all its business in the UK and Offshore Islands. Currency swaps are in place in respect of all investments denominated in currencies other than Sterling.

1700 Form omitted

No Category 1 Form 17 has been prepared on the basis that there are no derivative contracts for this category of assets.

1701 Variation margin

The aggregate amount of any excess variation margin which has been received by the Company is £29k.

The variation margin is allocated as follows:

	2013	2012
	£'000	£'000
Form 13 line 44	(316,361)	(309,334)
Form 14 line 38	287,545	240,194

No amounts included on Forms 13 reflect the liability to repay any excess.

4008 Management services

Management services have been provided throughout the financial year to the Company by Aviva Life Services UK Limited.

Investment management services have been provided by Aviva Investors Global Services Limited.

4009 Related party transactions

Other than the quota share reinsurance arrangement referred to in note 0203 above, there were no other related party transactions during the year which exceeded 5% of the long-term insurance liabilities net of reinsurance ceded.

4702 UK and overseas annuities

UK Life and Overseas new immediate annuities are all assumed to be 395 Annuity non-profit (PLA) contracts and not to arise as a result of any funds held within a pension arrangement.

Supplementary notesName of insurer **Aviva Annuity UK Limited**

Global business

Financial year ended **31st December 2013****Code****4703 Apportionment between product codes**

Where a policyholder holds a plan with both non-linked and index-linked benefits the policyholder count is assigned to column 5 for the index-linked product code. Where a policyholder holds more than one plan, the policyholder count is assigned to column 5 for each plan.

4802 Expected interest

Expected interest from six debentures and a number of commercial and healthcare mortgages (approximately 4% of the UKCF mortgage portfolio by market value) currently in default is not included in column 3 of Form 48. The total expected interest is £33,773k (£3,904k debentures in default and £29,869k impaired mortgages).

The yield on these assets is not required to support the valuation basis rates of interest in Forms 51 and 57.

4803 Redemption of securities

Where securities may be redeemed over a period at the option of the guarantor or the issuer, it has been assumed within the yield calculation that they will be redeemed at the earliest callable date. The value of the assets that contain this option is £360.171m.

4804 Yield for assets line 18

The yield shown in column 4 for the following assets is significantly different from the weighted average of the yields for each asset of that type determined in accordance with INSPRU 3.1.34R(2) before any allowance for tax required by INSPRU 3.1.29R.

	Yield
Deposits not subject to time restriction (Form 13 Line 81)	0.525% pa
Shares in non-insurance dependants (Form 13 Line 25)	Nil
Other debtors (Form 13 line 78)	Nil

4901 Credit rating**5601**

The credit rating analysis on Forms 49 and 56 have been prepared using the second highest published rating of those provided by Standard & Poor's, Fitch, and Moody's.

Internally assigned ratings have been used for securities that are not rated by external agencies.

5102 Number of policyholders**5402**

Where a policyholder holds a plan with both non-linked and index-linked benefits the policyholder count is assigned to column 3 for the index-linked product code. Where a policyholder holds more than one plan, the policyholder count is assigned to column 3 for each plan.

Supplementary notesName of insurer **Aviva Annuity UK Limited**

Global business

Financial year ended **31st December 2013****Code****5705 Yields to which risk adjustment is applied**

Form 57 Column 5 includes yields after risk adjustment, in accordance with INSPRU 3.1.35R.

The following table shows the yields to which the risk adjustment was applied (after the deduction of investment expense allowances):

	Risk adjusted yield on matching assets (Form 57 Column 5)	Yield before risk adjustment
UK L&GA NP Form 51	4.85	5.55
UK Pens NP Form 51	4.85	5.55
OS L&GA NP Form 51	4.85	5.55
UK L&GA NP Form 54	0.39	1.05
UK Pens NP Form 54	0.39	1.05
OS L&GA NP Form 54	0.39	1.05

Valuation report prepared by the actuarial function holder – IPRU (INS) Appendix 9.4Name of Insurer **Aviva Annuity UK Limited**

Global business

Financial year ended **31 December 2013****1. Introduction**

- (1) The **valuation date** is 31 December 2013.
- (2) The previous valuation was completed with an effective date of 31 December 2012.
- (3) No interim valuations have been carried out.

2. Product Range

The only relevant product change in 2013 is that for individual annuities it is assumed that customers will have at least a 1 year guarantee period (subject to being allowed under the terms and conditions). Furthermore, if the annuitant dies within 90 days of the contract commencement date the full premium, less income payments made, will be returned to the estate, any tax liability being met by Aviva.

3. Discretionary charges and benefits

- (1) There is no accumulating with-profits business.
- (2) Not applicable.
- (3) There are no deposit administration benefits.
- (4) The guaranteed annuity benefit is calculated incorporating an allowance for service charges.
- (5) Not applicable.
- (6) There is no accumulating with profit business.
- (7) Not applicable.
- (8) Not applicable.
- (9) Not applicable.
- (10) Not applicable.

4. Valuation basis

- (1) The conventional immediate and deferred annuity business is valued by discounting future benefit payments and maintenance expenses.

The mathematical reserve for inflation linked annuities is determined with a market-consistent inflation assumption (3.68% pa at 31 December 2013) as the allowance for future increases in annuity payments. This is consistent with the treatment of the matching assets. Some inflation linked annuities are subject to maximum and minimum percentage annual increases which are valued accordingly.

- (2) The following table gives the valuation interest rates at the end of 2013 compared with those at the end of 2012. Non-linked and index-linked liabilities are backed by different assets and hence have different valuation interest rates. Index-linked yields are real yields.

Product Group	Valuation interest rates	
	31/12/2013 %	31/12/2012 %
Non-linked pensions annuities	4.711	4.089
Non-linked life and general annuities	4.711	4.089
Index-linked pensions annuities	0.270	0.306
Index-linked life and general annuities	0.270	0.306
Bulk Purchase Annuities – Non-linked	4.711	4.089
Bulk Purchase Annuities – Index-linked	0.270	0.306

Valuation report prepared by the actuarial function holder – IPRU (INS) Appendix 9.4Name of Insurer **Aviva Annuity UK Limited**

Global business

Financial year ended **31 December 2013**

- (3) In accordance with INSPRU 3.1.41R, a prudent adjustment for that part of the yield estimated to represent compensation for credit risk, was made to the yield on assets.

This adjustment took account of:

- (a) Market margins of gross yield over the yields of risk-free investments of a similar term in the same currency, where available
- (b) The reasonableness of the net-of-adjustment yields over the yields of risk-free investments of a similar term in the same currency, taking account of the points above
- (c) The future outlook for bad debt experience
- (d) The historic experience of bad debts for each of the major asset classes
- (e) The need to take a prudent view of the above

The deductions for bad debts were:

Asset Category	31/12/2013	31/12/2012
Commercial mortgages	0.72%	0.72%
Healthcare mortgages (GPFC/PFI)	0.10%	0.10%
Non-linked equity release mortgages	1.40%	1.35%
RPI linked equity release mortgages	3.50%	3.00%
Index-linked property	0.77%	0.69%
Corporate Bonds – AAA	0.21%	0.14%
Corporate Bonds – AA	0.34%	0.25%
Corporate Bonds – A	0.53%	0.49%
Corporate Bonds – BBB	0.98%	0.91%
Corporate Bonds – BB	2.27%	2.14%
Corporate Bonds – B	6.22%	5.81%
Corporate Bonds – unrated	0.98%	0.91%
Private placements	<i>See Note</i>	<i>See Note</i>
Swaps	0.00%	0.00%
Barclays liquidity swaps	0.05%	n/a
Morgan Stanley Libor Generator	0.27%	0.00%

Note: Rating-specific deductions were applied to private placements in line with the corporate bond deductions in the above table.

In addition, supplementary reserves are held for credit risk in respect of commercial mortgages and healthcare mortgages. These are detailed in Section 8.

The valuation rate of interest used is net of a deduction of 0.02% pa which provides a prudent margin for cash flow reinvestment and disinvestment risk. At 31 December 2012 the deduction was 0.08% pa.

- (4) Mortality is based on UK standard published tables with prudent allowance for current experience, and adjustments for improving longevity. The policyholders predominantly reside in the country of operation, except for business written in the Minor Sterling category.

In 2013 the base tables and the allowances for future mortality improvements were reviewed, resulting in revised assumptions for use at 31/12/2013. The base table assumptions include an adjustment for anti-selection that varies by individual year of entry.

A further manual reserve of £(115)m was made at 31/12/2013 to allow for population mortality experience that emerged after the full review had been completed, in prudent anticipation that the emerging experience will lead to a reduction in future improvement assumptions.

Details are provided in the tables overleaf.

Valuation report prepared by the actuarial function holder – IPRU (INS) Appendix 9.4Name of Insurer **Aviva Annuity UK Limited**

Financial year ended **31 December 2013**

The mortality basis for Bulk Purchase Annuity mortality in deferment is shown in the table below:

	Bulk Purchase Annuity mortality in deferment					
	31/12/2013			31/12/2012		
	Base table	Male %	Female %	Base table	Male %	Female %
Bulk Purchase Annuities	AMC00 (ultimate)/ AFC00 (ultimate)	83.6	86.0	AMC00 (ultimate)/ AFC00 (ultimate)	83.6	86.0
Improvement rates	CMI_2012 (applicable from 2001), plus a 0.5% constant addition from 2013 onwards	_M[1.75]	_F[1.5]	CMI_2011 (applicable from 2001), plus a 0.5% constant addition from 2012 onwards	_M[1.5]	_F[1.0]

The mortality basis for Bulk Purchase Annuity mortality in payment is shown in the table below:

	Bulk Purchase Annuity Mortality in Payment:					
	31/12/2013			31/12/2012		
	Base table	Male %	Female %	Base table	Male %	Female %
*Bulk Purchase Annuities	PCMA00/PCFA00	88.2 to 114.66	84.15 to 107.525	PCMA00/PCFA00	77.2 to 112.905	73.2 to 105.225
Improvement rates	CMI_2012 (applicable from 2001), plus a 0.5% constant addition from 2013 onwards	_M[1.75]	_F[1.5]	CMI_2011 (applicable from 2001), plus a 0.5% constant addition from 2012 onwards	_M[1.5]	_F[1.0]

** Note - The Bulk Purchase Annuity mortality rates are scheme-dependent.*

Changes since 2012 are a result of a review of the base tables and future mortality improvements.

No allowance is made or reserve held in addition to the assumptions above, in respect of possible changes in the incidence of disease or developments in medical science.

The resulting life expectancies from the valuation date for annuities in payment are shown in the table below at sample ages. Bulk Purchase Annuity life expectancies are shown for the average pensioner.

Expectations of life (years)	31/12/2013			
	Male		Female	
	65	75	65	75
Pension Annuity (Pre 1997)	25.0	15.2	27.2	17.1
Pension Annuity 1997 - 2012	The Expectations of Life for the intervening years are in the range between those for Pre 1997 and 2013.			
Pension Annuity 2013	26.7	16.7	28.8	18.6
General Annuity	25.8	15.8	28.0	17.5
Provident Mutual originated annuity	26.0	16.1	27.8	17.7
Bulk Purchase Annuities	25.0	15.3	27.2	17.2
Structured Settlements	24.1	15.3	27.1	17.4

Valuation report prepared by the actuarial function holder – IPRU (INS) Appendix 9.4Name of Insurer **Aviva Annuity UK Limited**

Global business

Financial year ended **31 December 2013**

Expectations of life (years)	31/12/2012			
	Male		Female	
	65	75	65	75
Pension Annuity (Pre 1997)	24.8	15.3	26.5	16.8
Pension Annuity 1997 - 2011	The Expectations of Life for the intervening years are in the range between those for Pre 1997 and 2012.			
Pension Annuity 2012	26.6	16.7	28.1	18.2
General Annuity	25.0	15.3	27.5	17.3
Provident Mutual originated annuity	26.1	16.3	26.6	16.8
Bulk Purchase Annuities	24.8	15.3	26.5	16.9
Structured Settlements	23.7	14.9	26.7	17.0

Life expectancies at age 65 for deferred annuities are shown in the table below at sample ages:

Expectations of life (years)	At Age 65			
	Male		Female	
	31/12/2013	31/12/2012	31/12/2013	31/12/2012
Bulk Purchase Annuities:				
Current Age 45	28.8	28.2	30.5	29.0
Current Age 55	26.9	26.4	28.9	27.8

- (5) Not applicable.
- (6) The value of future maintenance expenses is calculated from current maintenance expense levels by broad category of business, increasing by future expense inflation over the lifetime of each contract. The following expense assumptions are based on the terms of the Management Services Agreement between Aviva Life Services UK Limited and Aviva Annuity UK Limited and increased by 10% in respect of project costs. Expense assumptions are shown for pension annuities only. The per policy expenses are shown gross and no tax relief is assumed:

	Per policy expense £ per annum	
	2013	2012
Annuity non-profit CPA (400)	17.03	15.62
Annuity non-profit (bulk transfer) (401)	31.89	30.93

Assumed per-policy expenses on CPA business have increased by 9% since 2012. This is due to an increase in the fixed expense allowance and the inflationary increase being offset by a larger number of policies over which the maintenance costs are spread.

An additional reserve of £11.5m (net of 12.5% reinsurance to Aviva Life & Pensions UK Limited) has been established in respect of project cost overruns.

The assumed future inflation rate applying to maintenance expenses is 3.38% pa.

- (7) Not applicable.
- (8) Not applicable.
- (9) Not applicable.
- (10) The valuation interest rate was adjusted to allow for investment expenses based on actual investment charges incurred. There were no other material basis assumptions.
- (11) The Company holds the following derivatives to back policyholder liabilities:

One interest rate swap provides fixed interest cash flows in exchange for variable interest cash flows from certain mortgage assets used to back long-term fixed interest liabilities. Five interest rate swaps are held in respect of matching asset and liability cash flows for fixed interest business, and provide long-term fixed interest cash flows in exchange for short and medium term cash flows.

Two swaps provide fixed interest cash flows in exchange for RPI linked cash flows from two corporate bond assets used to back long-term fixed interest liabilities. Sixty three swaps are held to provide fixed

Valuation report prepared by the actuarial function holder – IPRU (INS) Appendix 9.4

Name of Insurer **Aviva Annuity UK Limited**

Global business

Financial year ended **31 December 2013**

interest cash flows in exchange for LIBOR cash flows, and these are used to back long-term fixed interest liabilities.

Sixty three fixed interest credit default swaps have been bought to hedge the risk of default on certain assets backing the liabilities. A further sixty six fixed interest credit default swaps have been sold to actively manage the risk associated with certain counterparties.

The Company holds forty one currency swaps to hedge the risk of currency movements on corporate bonds denominated in US dollars (thirty eight) and Euros (three) backing liabilities denominated in Sterling.

Fifty nine inflation swaps are held to hedge the risk of inflation arising from RPI and LPI linked liabilities, backed by fixed interest corporate bonds.

The valuation interest rate used to determine the value of long-term index linked liabilities is derived from the rate of interest that equates the discounted value of aggregate cash flows, including cash flows arising from each of the swaps, with the total market value of the asset portfolio, including the market value of each of the swaps.

Supplementary note 0204 gives details of the valuation interest rate approach.

- (12) There is no impact on mathematical reserves arising from changes in the INSPRU valuation rules effective from 31 December 2006.

5. Options and Guarantees

- (1) Not applicable.
- (2) Not applicable.
- (3) Not applicable.
- (4) There are no other guarantees or options with any value.

6. Expense Reserves

- (1) Based on the business in force at 31 December 2013, the explicit allowance for maintenance expenses during 2014 is £17.9m and the implicit allowance in the valuation rate of interest for investment expenses during 2014 is £18.9m (prior to reinsuring 12.5% to Aviva Life & Pensions UK Limited)... All expenses have been treated as attributable.
- (2) The implicit allowance for investment expenses was estimated by applying the investment expense deductions by asset class assumed in the valuation interest rate calculation to the assets allocated to the valuation liabilities.
- (3) The 2013 maintenance expenses in line 14 of Form 43 are £40.8m. The corresponding allowance for 2014 expenses in 6(1) above is £36.8m (prior to reinsuring 12.5% to Aviva Life & Pensions UK Limited). The £4m difference is mainly driven by prior year adjustments, and to project costs and investment expenses in 2013 being higher than 2014 allowances.
- (4) The costs of acquiring new business assumed in the next twelve months would have little impact on the Company and would be charged to the new business written.
- (5) An assessment was made of the cost of closure of the Company to new business at the end of 2013 and a reserve of £22.4m, corresponding to the full cost (net of 12.5% reinsurance to Aviva Life & Pensions UK Limited), was included on Form 51.
- (6) There are no expenses which have been treated as non-attributable.

Valuation report prepared by the actuarial function holder – IPRU (INS) Appendix 9.4

Name of Insurer **Aviva Annuity UK Limited**

Global business

Financial year ended **31 December 2013**

7. Mismatching Reserves

- (1) Mathematical reserves for overseas business as reported in Forms 51 and 54 are all in respect of sterling liabilities. These are matched by sterling assets, except for £768.4m of US dollar bonds and £67.7m of Euro bonds whose cashflows are converted into sterling using currency swaps.
- (2) There are no liabilities in non-sterling currencies.
- (3) No reserves are held for currency mismatching because there are no significant liabilities in currencies different from the matching assets.
- (4) Two tests were applied at December 2013, in line with INSPRU 3.1.16R:

- (a) a rise in risk free interest yields for all outstanding terms of 20% of the long term gilt yield accompanied by a fall in property values of 20%
- (b) a fall in risk free interest yields for all outstanding terms of 20% of the long term gilt yield accompanied by a fall in property values of 20%

For those fixed interest securities that are not risk free, we assume the yield differential to risk free does not reduce in a resilience test.

The most onerous scenario as at 31 December 2013 was test (b).

- (5) Two tests were applied at December 2013, in line with INSPRU 3.1.23R, for the assets invested outside of the UK. For Aviva Annuity UK Limited the only significant territory is the US, in which the holding of fixed interest corporate bonds makes up approximately 3.3% of the overall portfolio of assets backing liabilities.

- (a) a rise in risk free interest yields for all outstanding terms of 20% of the long term US risk free yield accompanied by a fall in UK property values of 20%
- (b) a fall in risk free interest yields for all outstanding terms of 20% of the long term US risk free yield accompanied by a fall in UK property values of 20%

For those fixed interest securities that are not risk free, we assume the yield differential to risk free does not reduce in a resilience test.

The most onerous scenario as at 31 December 2013 was test (b).

- (6) The assets and liabilities have been revalued on this interest basis as set out in (4) and (5) above.
 - (a) The calculations have led to a resilience capital requirement of £61.7m (net of 12.5% reinsurance to Aviva Life & Pensions UK Limited).
 - (b) The aggregate value of liabilities increased by £2,027.3m (net of 12.5% reinsurance to Aviva Life & Pensions UK Limited).
 - (c) The aggregate value of assets increased by £1,965.6m (net of 12.5% reinsurance to Aviva Life & Pensions UK Limited).
- (7) The valuation liabilities include an allowance of a 0.02% pa deduction from the valuation interest rate for duration mismatch as mentioned in section 4(3). No further reserve is required to satisfy INSPRU 1.1.34R.

8. Additional Special Reserves

An additional reserve to cover potential data quality issues is established at a level of 0.15% of the reserve for future annuity payments and expenses.

A reserve of £682.5m (net of 12.5% reinsurance to Aviva Life & Pensions UK Limited) is held for additional credit risk in respect of commercial and healthcare mortgages.

Valuation report prepared by the actuarial function holder – IPRU (INS) Appendix 9.4Name of Insurer **Aviva Annuity UK Limited**

Global business

Financial year ended **31 December 2013****9. Reinsurance**

- (1) The Company has no facultative reinsurance with a reinsurer who is not authorised to carry out business in the United Kingdom.
- (2) There were 9 reinsurance treaties with external reinsurers where the Company was the ceding insurer and under which business was in force at the valuation date.

Treaties 1 to 3	
Reinsurer	Munich Re (Treaty 1 and 2) and Hannover Re (Treaty 3)
Nature of cover	50% (Treaty 1) or 90% (Treaties 2 and 3) Quota share on UK Long Term Care (Immediate Care) business
Premiums payable in 2013	£0.02m
Deposit back arrangements	Not applicable
Open/closed to new business	Treaty 1 was closed to new business in March 2001. New business is placed with either Munich Re under Treaty 2 or Hannover Re under Treaty 3.
Undischarged liabilities	None
Mathematical reserves ceded	Total reserves ceded under the 3 treaties are £5.419m
Retention limit for new policies	10% retained of each new annuity

Munich Re and Hannover Re are authorised to carry on insurance business in the UK and are not connected with the insurer. The treaties are not subject to any material contingencies. There are no liabilities to refund reinsurance commission in the event of lapse or surrender of the contract under any of the treaties. None of the treaties is a financing arrangement.

Treaty 4	
Reinsurer	Hannover Re
Nature of cover	75% longevity swap on UK Impaired Life Annuity business
Premiums payable in 2013	£3.735m
Deposit back arrangements	Not applicable
Open/closed to new business	Closed to new business
Undischarged liabilities	None
Mathematical reserves ceded	£7.392m
Retention limit for new policies	Not applicable

The treaty is not subject to any material contingencies. There are no liabilities to refund reinsurance commission in the event of lapse or surrender of the contract under the treaty. The treaty is not a financing arrangement.

	Treaty 5	Treaty 6
Reinsurer	XL Re	Partner Re
Nature of cover	Longevity swap in respect of 7% of a defined block of in-force UK pension annuity business agreed at the treaty commencement date.	Longevity swap in respect of 3% of a defined block of in-force UK pension annuity business agreed at the treaty commencement date.
Premiums payable in 2013	£39.239m	£16.817m
Deposit back arrangements	Not applicable	Not applicable
Open/closed to new business	Closed to new business	Closed to new business
Undischarged liabilities	None	None
Mathematical reserves ceded	£17.006m	£7.288m
Retention limit for new policies	Not applicable	Not applicable

XL Re is authorised to carry on insurance business in the UK. Partner Re is not authorised to carry on insurance business in the UK. Neither reinsurer is connected with the insurer. The treaties are not subject to any material contingencies. There are no liabilities to refund reinsurance commission in the event of lapse or surrender of the contract under either treaty. Neither treaty is a financing arrangement.

Global business

Financial year ended **31 December 2013**

Treaty 7		
Reinsurer	RGA Reinsurance UK Limited	RGA Reinsurance US Limited
Nature of cover	Longevity swap in respect of varying proportions of new enhanced annuities written from the treaty commencement date. The UK entity takes 10% of the total business reinsured whilst the US entity takes 90% of the total business reinsured.	
Premiums payable in 2013	£2.887m	£25.982m
Deposit back arrangements	Not applicable	
Open/closed to new business	Closed to new business on 18 th May 2011	
Undischarged liabilities	None	
Mathematical reserves ceded	£3.841m	£34.526m
Retention limit for new policies	If the Purchase Price is not more than £20,000, 90% is retained if automatically underwritten and 80% is retained if manually underwritten. Otherwise, policies with a Purchase Price up to and including £1m have 60% retained if automatically underwritten and 40% retained if manually underwritten. Policies with a Purchase Price in excess of £1m but not more than £2m have 75% retained if automatically underwritten and 60% retained if manually underwritten. 100% is retained of any Purchase Price in excess of £2m.	

RGA Reinsurance UK Limited is authorised to carry on insurance business in the UK. RGA Reinsurance US Limited is not authorised to carry on insurance business in the UK. Neither reinsurer is connected with the insurer. The treaty is not subject to any material contingencies. There are no liabilities to refund reinsurance commission in the event of lapse or surrender of the contract under the treaty. The treaty is not a financing arrangement.

Treaty 8	
Reinsurer	Maturin UK 2008-01 (M/F 80-100) IC Limited
Nature of cover	Longevity swap in respect of a defined block of in-force UK pension business agreed at the treaty commencement date. Payments are subject to a cap and floor.

Not relevant. The Company has no with profits business.

Statement on derivatives required by IPRU (INS) 9.29

Name of Company **Aviva Annuity UK Limited**

Global business

Financial year ended **31st December 2013**

The following summarises investment policy for the use of derivatives: -

- Derivatives will only be used in accordance with PRA Guidelines for the purpose of efficient portfolio management or reduction in investment risk.
- Derivatives must not be used for speculative purposes.
- Derivatives must be fully covered by the assets of the fund and must not be used to 'gear up' a fund.
- Counterparty risk – for exchange traded contracts, the exchange must be classed as "regulated" by an investment committee. Over the counter contracts, transactions must only be transacted with approved counterparties.
- Counterparty limits are consistent, and monitored in line with the fund's aggregate exposure guidelines.
- Controls and Monitoring – delegated authorities exist for each member of staff using derivatives. Derivatives transactions are priced, settled and profit and losses reconciled in an area independent of the fund managers involved.

The speculative use of derivative contracts is prohibited.

There are no specific guidelines for the use of contracts that were not reasonably likely to be exercised at the start of the contract.

No derivative contracts were held at any time during the financial year that required a significant provision under INSPRU 3.2.17R, and where appropriate, all contracts held fell within the definition of a permitted derivative contract.

Certificate by the directors required by IPRU (INS) 9.34(1) and IPRU (INS) Appendix 9.6

Name of insurer **Aviva Annuity UK Limited**

Global business

Financial year ended **31st December 2013**

We certify that:

- 1 (a) the return has been properly prepared in accordance with the requirements in IPRU(INS), GENPRU and INSPRU; and
(b) the directors are satisfied that:
 - (i) throughout the financial year in question, the insurer has complied in all material respects with the requirements in SYSC and PRIN as well as the provisions of IPRU(INS), GENPRU and INSPRU; and
 - (ii) it is reasonable to believe that the insurer has continued so to comply subsequently, and will continue so to comply in future.
- 2 (a) in the directors' opinion, premiums for contracts entered into during the financial year and the resulting income earned are sufficient, under reasonable actuarial methods and assumptions, and taking into account the other financial resources of the insurer that are available for the purpose, to enable the insurer to meet its obligations in respect of those contracts and, in particular, to establish adequate mathematical reserves;
(b) the sum of the mathematical reserves and the deposits received from reinsurers as shown in Form 14, constitute proper provision at the end of the financial year in question for the long-term insurance liabilities (including all liabilities arising from deposit back arrangements, but excluding other liabilities which had fallen due before the end of the financial year) including any increase in those liabilities arising from a distribution of surplus as a result of an actuarial investigation as at that date into the financial condition of the long-term insurance business; and
(c) the directors have, in preparing the return, taken and paid due regard to advice from every actuary appointed by the insurer to perform the actuarial function in accordance with SUP 4.3.13R.

Independent auditors' report to the directors pursuant to rule 9.35 of the Interim Prudential Sourcebook for Insurers

Name of insurer **Aviva Annuity UK Limited**
Global Business
Financial year ended **31st December 2013**

We have audited the following documents prepared by the insurer pursuant to the Accounts and Statements Rules set out in Part I and Part IV of Chapter 9 to IPRU(INS) the Interim Prudential Sourcebook for Insurers, GENPRU the General Prudential Sourcebook and INSPRU the Prudential Sourcebook for Insurers ('the Rules') made by the Financial Services Authority under section 137G of the Financial Services and Markets Act 2000:

- Forms 2, 3, 13 to 17, 40 to 43, 48, 49, 56, 58 and 60, (including the supplementary notes) ('the Forms');
- the statement required by IPRU(INS) rule 9.29 ('the statement'); and
- the valuation report required by IPRU(INS) rule 9.31 ('the valuation report');

We are not required to audit and do not express an opinion on:

- Forms 46, 47, 50, 51, 54 and 57 (including the supplementary notes);
- the statement required by IPRU(INS) rule 9.30; and
- the certificate required by IPRU(INS) rule 9.34(1).

Respective responsibilities of the insurer and its auditors

The insurer is responsible for the preparation of an annual return (including the Forms, the statement and the valuation report) under the provisions of the Rules. The requirements of the Rules have been modified by directions treated as issued under section 138A of the Financial Services and Markets Act 2000 on 17 September 2009 and 27 April 2012. Under IPRU(INS) rule 9.11 the Forms, the statement and the valuation report are required to be prepared in the manner specified by the Rules and to state fairly the information provided on the basis required by the Rules. The methods and assumptions determined by the insurer and used to perform the actuarial investigation as set out in the valuation report are required to reflect appropriately the requirements of INSPRU 1.2.

It is our responsibility to form an independent opinion as to whether the Forms, the statement and the valuation report meet these requirements, and to report our opinion to you. We also report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the Forms, the statement and the valuation report are not in agreement with the accounting records and returns; or
- we have not received all the information we require for our audit.

This report has been prepared for the directors of the insurer to comply with their obligations under IPRU(INS) rule 9.35 and for no other purpose. We do not, in providing this report, accept or assume responsibility for any other purpose save where expressly agreed by our prior consent in writing.

Basis of opinion

We conducted our work in accordance with Practice Note 20 'The audit of insurers in the United Kingdom (Revised)' issued by the Auditing Practices Board. Our work included examination, on a test basis, of evidence relevant to the amounts and disclosures in the Forms, the statement and the valuation report. The evidence included that previously obtained by us relating to the audit of the financial statements of the insurer for the financial year. It also included an assessment of the significant estimates and judgements made by the insurer in the preparation of the Forms, the statement and the valuation report.

We planned and performed our work so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the Forms, the statement and the valuation report are free from material misstatement, whether caused by fraud or other irregularity or error and comply with IPRU(INS) rule 9.11.

In accordance with IPRU(INS) rule 9.35(1A), to the extent that any document, Form, statement, analysis or report to be examined under IPRU(INS) rule 9.35(1) contains amounts or information abstracted from the actuarial investigation performed pursuant to IPRU(INS) rule 9.4, we have obtained and paid due regard to advice from a suitably qualified actuary who is independent of the insurer.

Independent auditors' report to the directors pursuant to rule 9.35 of the Interim Prudential Sourcebook for Insurers

Name of insurer	Aviva Annuity UK Limited
Global Business	
Financial year ended	31st December 2013

Opinion

In our opinion:

(i) the Forms, the statement and the valuation report fairly state the information provided on the basis required by the Rules as modified and have been properly prepared in accordance with the provisions of those Rules; and

(ii) the methods and assumptions determined by the insurer and used to perform the actuarial investigation as set out in the valuation report appropriately reflect the requirements of INSPRU 1.2 .
